## **Catloaf Software Releases *Texts From Bernie* for iPhone®, iPad® and Apple Watch®**

### ***New iOS App Provides Quick Access To Quotes From Bernie Sanders***

LOS ANGELES, CA — April 27, 2016 — Catloaf Software, a seasoned developer of educational mobile applications, has released their latest opus in the series of *Texts From* quote apps, *Texts From Bernie*. This Apple exclusive app is now available on the App Store as a free download.

Following other applications in the *Texts From* series, such as the popular *Texts From Jesus*, this new app features hundreds of hand-picked quotes from Senator Bernie Sanders, spanning his decades-long career in public office. All quotes are gathered from public statements from the Senator from Vermont, including campaign speeches and appearances at debates and on various media outlets.

A new quote gets delivered every day to the device as a notification, via a *Today Widget* or on a paired Apple Watch. Quotes can be quickly “loved”, “hated” or shared on Facebook and other social networks. Additionally, all quotes are indexed by iOS 9 for quick and easy search.

“*Texts From Bernie* aims to be yet another informative tool in the run-up to the 2016 U.S. Presidential election, on the heels of our recent *Texts From Trump* release”, according to Stéphane Peter, president of Catloaf Software, LLC. “Both supporters and detractors of Bernie’s run for the presidency will find material they can relate to.”

*Texts From Bernie* can be downloaded today for free from the [bernie.texts.fr](http://bernie.texts.fr) website and directly from the Apple App Store.

*Texts From Bernie* is available now for all iPhone, iPad and iPhone touch devices running iOS 8 and later.

Follow *Texts From Bernie* on Facebook at [facebook.com/TextsFromBernie](https://facebook.com/TextsFromBernie), follow the *Texts From* apps on Twitter at [@TextsFr](https://twitter.com/TextsFr) and follow Catloaf Software at [@catloafsoft](https://twitter.com/catloafsoft).
